Start your day with a morning pick-up from your hotel, driving north to the Daintree Rainforest. Dating back 135 million years, the rainforest is one of the oldest in the world and is now home to one of the most diverse ecosystems in the world. Your guide takes you first to the Daintree River, where you enjoy morning tea before stopping on board a cruise. As you float down the gentle current, look for birds, frogs, crocodiles, and even flying foxes in the flourishing nature around you.

Following your cruise, take lunch by the Daintree Entomological Museum before touring its fascinating exhibits, which house the largest live and dead collection of insects in Australia. Green Island Day Trip

Cruise to Green Island, the only coral cay in the Great Barrier Reef with a lush rainforest. Spend the day exploring this protected Marine National Park—immersing yourself in its surrounding undersea universe teeming with coral and marine life.

Your journey begins aboard a high-speed catamaran steering for the soft, white beaches of Green Island. This 6000-year-old coral cay boasts its own rainforest—the only of its kind in the Great Barrier Reef. Mid-cruise, tune in to your local guide's informative snorkelling and reef presentation. Upon arrival, step ashore to soak up the turquoise waters, glittering sand, and fringe of emerald palms ringing the island. Climb into a glass-bottom boat and lean over the railings to get an up-close look at a colourful underwater world. Feast your eyes on brilliant colonies of zany Brain Coral, orange sea stars, and scores of blue damselfish flitting to and fro.

If you're craving a swim, strap on a snorkel and mask to see everything up close: black and white angelfish feeding on sponges and striped clownfish nestled amongst anemones. Emerge from the water to amble around the island at your leisure. Relax on the beach to soak up the sun, or choose to indulge in an optional semi-submarine tour, or buffet lunch before cruising back to Cairns.
